

## Standard Operating Procedure Refuse Disposal Division

### Landfill Operations

## Radiator Blowout Procedure: *826 Compactor*

1. Always allow five-minute cool down prior to engine shut-off.
2. Ensure you are wearing all safety gear (i.e., glasses, gloves, respirator/ dust masks).
3. Secure Park mode – all attachments lowered.
4. Open up protective radiator grill guards, bonnet or cowl.
5. Split transmission cooler, if applicable.
6. Blowout transmission cooler, radiator and air cooler.
7. Close machinery guards and bonnets.
8. Ensure all latches and locks are in place and air indicators are in the green.

**\*NOTE – This blowout procedure is to be done a minimum of four (4) times a day.  
More frequently, if necessary.**

*Environmental Management System (EMS) –ISO 14001*

*PROCESS MAP #: GP-1.0*

### **Benefit of Compliance to Instruction:**

- Increased life span of machinery
- Increased productivity
- Reduced fuel consumption

### **Consequence of Non-Compliance to Instruction:**

- Machinery breakdown -> high cost of replacement parts
- Reduced productivity
- Increased emissions
- Disciplinary action
